

Platform and stairs provides easy access to top head ports.

Call International Reactor!

Another solution for our customers!

Customer: Coatings Manufacturer
Location: California

50 gallon reactor - 50 psig with stuffing box seal, 200 °F. Conventional jacket surrounding the reactor straight side and lower head. A spiral baffle in the space between the reactor and the jacket promotes uniform fluid motion and good heat transfer. Sanitary fittings for connections on top head. Overhead reflux condenser mounted to top of reactor. 22 KW recirculating hot water system for heating and cooling vessel. Wrap around access platform with stairs supplied by IRC.
