

Save money. Modernize or re-furb an old pilot plant reactor system!

Call International Reactor!

Another solution for our customers!

Trade-In or Upgrade Used Reactors with Our Modernization Program

Have your customers check their "bone-yards". We can re-furb and rebuild their old lab scale, bench scale, development or pilot plant reactors.

We have all job files and drawings for IRC, ARC and Hoppes agitators, reactors and reactor systems.

We have extensive working knowledge of Chemineer, Bench Scale Equipment and G. H. Hicks & Sons reactors and reactor systems.

Some of the repairs and refurbishments that we have done for other customers include:

- ◆ Supplying a new shaft
- ◆ Repairing or rebuilding the seal
- ◆ Vessel and/or jacket repair/alteration
- ◆ Replacing mechanical seals with magnetically coupled drives
- ◆ Replacing bearings and shaft
- ◆ Drive conversion (ex: from mechanical to variable frequency)
- ◆ Impeller conversion (ex: from turbine to helix-anchor)
