

I-1 Pipe Shaver Monthly Rental Price List

The I-1 portable pipe shavers are intended for use with electric drill motors. The I-1 shaver provides a relatively fool-proof way of preparing the ends of filament wound pipe to the proper dimensions for field bell and spigot adhesive welding of pipe.

Diameter	Monthly Rental Price	Purchase Price
1/2"	\$235.00	\$1,410.00
3/4"	\$235.00	\$1,410.00
1"	\$235.00	\$1,410.00
1-1/4"	\$235.00	\$1,410.00
1-1/2"	\$235.00	\$1,410.00
2"	\$245.00	\$1,470.00
2-1/2"	\$256.90	\$1,541.00
3"	\$268.70	\$1,612.00
4"	\$292.20	\$1,753.00
5"	\$369.40	\$2,216.00
6"	\$369.40	\$2,216.00
7"	\$393.50	\$2,361.00
8"	\$393.50	\$2,361.00

Materials of Construction: I-1 pipe shaver body is made of aluminum for light weight and ease of handling. The cutters are carbide tipped for maximum life, and with rotatable new cutting surfaces for long life.

Design Considerations: The I-1 pipe shavers are made with rotating arbor mandrels to prevent damage to the pipe liner. The center arbor mandrels are interchangeable (removable) so that the same shaver can be used for 40 mil and 100 mil lined pipe. You only need to change the arbor mandrel, for pipe having different inside diameters. Please specify the exact arbor mandrel o.d. required at the time of order.

Pricing Considerations: Prices shown above are your NET monthly rental costs. Shavers are rented on a monthly basis, or any part thereof, with a minimum one month rental. For example: Six weeks of field use would be invoiced as two months. One-time setup service charge for special diameter (o.d.) shavers (all sizes) is \$223.00.

A security deposit is required prior to shipment of the shaver. The security deposit will be equal to the then current purchase price of that sized I-1 shaver. Once the pipe shaver is returned in good working condition, after passing QC inspection, and with all rental payments current, the security deposit will be refunded.

Delivery Considerations: Present standard delivery schedules are such that for an immediate order, we would expect to be able to ship in two to three working weeks. A specific delivery schedule to be negotiated at time of order. We will try to work with you on rush delivery requirements. For some sizes, we may have pipe shavers in stock that can be completed, and shipped on an ESP (Emergency Service Production) basis.

Freight Considerations: All prices are F.O.B. Dayton, Ohio.
